

Radique Consignment Policy

Radique Offers a comprehensive consignment sales service to our valued customers.

Our Process

1. Initial Submission:

- a. You provide us with a list of components you would like us to sell, along with a basic description of their cosmetic condition and functionality.
- b. We provide you with a ballpark list price for each component (our expected listing price).

2. Item Drop-off:

- a. If the estimated prices are agreeable, you arrange to drop off the consignment item(s) with us.
- b. We test each component (at our expense) to confirm functionality, as we provide a warranty to our customers upon sale.

3. Testing and Evaluation:

- a. We provide you with our testing results and inform you if any estimated prices need modification based on our testing and in-person evaluation.
- b. If any component(s) require service, we conduct the service and cover the upfront expense. This service amount is deducted from the gross sales proceeds.

4. Listing for Sale:

- a. Upon your approval, we post the confirmed component(s) for sale across our various sales channels.

5. Change of Mind:

- a. Should you decide not to proceed with the consignment sale, you agree to cover our standard bench testing fee (\$45 per item) and any incurred repair costs. Note that we will not proceed to the repair stage without your permission.

Radique Consignment Policy

6. Payment Terms:

- a. As each item sells, we send you an E-Transfer for 50% of the net sales amount.
- b. Net sales are calculated as the sales total minus any required repair costs.
- c. All other expenses (HST, warranty, advertising, finance costs, shipping costs, and our *soft labour costs*¹) come out of Radique's portion.
- d. Listed prices include HST, but the HST amount is deducted from Radique's 50% of the net sales.

7. Pricing Flexibility:

- a. We request up to a 10% latitude in the final sales price to accommodate our repeat customer and stacking discount policies.

8. Unsold Items:

- a. If any items have not sold within the first six months of being listed, we may look to reduce the list price but will contact you for permission before doing so.

¹ Soft labour costs include pre and post-service testing, describing, photographing, posting, auditioning, selling, and after-sale support.
